Re: Package A Elementary School Additions  
Crenshaw, Brown, DeZavalla and McMullan

Dear Sirs,

On Thursday, August 5, 2010, the Channelview Independent School District Board of Trustees approved the recommendation of Durotech as the successful proposer for the package A – Elementary Additions Project. This approval was based on the proposer evaluation criteria published in the Construction Documents.

The District appreciates the interest in this project by the many respected companies that offered proposals, and it is hoped that interest continues for future projects that are to be issued in the coming months.

Regards,

Daniel T. Brewster, AIA  
Associate
